

PPT offers a variety of software engineering services:

Business Process Improvement

- ▲ CMMI-Based Appraisals
- ▲ Configuration Management
- ▲ Estimation and Analysis
- ▲ Information Management
- ▲ Measurement
- ▲ Quality Assurance
- ▲ Risk Management
- ▲ Software Development
- ▲ Software Systems Safety
- ▲ Strategic Planning
- ▲ Test and Evaluation
- ▲ Verification and Validation

Process Improvement Expertise

- ▲ Organizational Process Improvement
- ▲ SW-CMM
- ▲ CMMI-DEV and Acquisition, Specializing in Software Process Improvement

Process Expertise

- ▲ Project Planning
- ▲ Project Monitoring and Control
- ▲ Requirements Development and Management
- ▲ Configuration Management
- ▲ Quality Assurance
- ▲ Verification and Validation
- ▲ Risk Management
- ▲ Measurement and Analysis

Process Improvement Expertise

- ▲ Organizational Vision and Goal Setting
- ▲ Strategic and Tactical Action Plan Development
- ▲ Improvement Infrastructure Development
- ▲ Process Analysis – Current State
- ▲ Process Design – Future State
- ▲ Process Documentation and Implementation
- ▲ Organizational Training
- ▲ Measurement Program Definition and Analysis
- ▲ Process Assessment
- ▲ Application Lifecycle Management Solutions

Task Experience - Examples

- ▲ Led organizations to an advanced maturity level
 - 1 Organization to SW-CMM Level 3 in 5 years
 - 1 Organization to SW-CMM Level 2 in 3 years
 - 1 Organization to CMMI Level 2 in 2 years
 - Led the measurement and analysis effort for an organization to reach SW-CMM Level 4
- ▲ Supporting organizations in their advancement to CMMI Level 5 and improved systems engineering, software engineering, and acquisition processes.
