

## Our Company

Headquartered in Huntsville, Alabama, PPT Solutions is a fast growing Small Business. Established in 2005, we provide software engineering services to Government and Aerospace organizations. PPT was founded on the belief that quantum improvements in quality and efficient, cost-effective software engineering products are achievable through use of an innovative business model that incorporates a disciplined approach using best practices for business and engineering processes.

Our principals have extensive experience in managing both Government and Industry software development and engineering programs. Our employees represent a family of professionals dedicated to satisfying customers while pursuing company and personal goals. PPT is well suited to deliver top quality software engineering services and products.

## Our Philosophy

We strive to provide the best service and value to our customers, leveraging people, process, and technology to ensure the highest quality product within cost and schedule. We work together with our customers, as a *team*, to provide optimum performance and solutions.

From defining the problem to producing the solution, we work side-by-side with our customers to provide research and *analysis* of their organization's current capabilities and needs as defined by their people, their process, and their technology.

We offer our software engineering support, such as, software safety certifications that results in recommendations to our customers for the best strategy to meet their performance, cost, and schedule *goals*.
